The Inkpot

September 2022

Dear Readers,

Our children celebrated the arrival of Spring with great exuberance.

When we work, we work hard, and when we have fun, we do it with great zeal.

Enjoy the read!

Regards,

The News Team

Cycling News

On 3rd September, 2022, Vergezicht WENT BIG! We had 8 participants in the XCO cycling event at Oak Valley wine estate in Grabouw. The learners and parents held hands and enjoyed the day together. The atmosphere of support and motivation from parents and learners was indescribable.

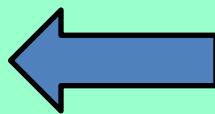

Our 8 learners who participated in this event were **Luca van der Westhuizen, Aldo de Villiers, Sebastian van Ees, Michiel le Roux, Finn Hughes, Arnou Schlechter, Ernst Engelbrecht and Jade Cornelius.** Our learners achieved excellent results. ALL of them made us proud with their endurance, sportsmanship and achievements.

Special congratulations go to **Ernst Engelbrecht** and **Jade Cornelius** for their exceptional achievements. Both of them contributed more than 100 points for Vergezicht. Jade came in 5th (podium position) position in his age category and received 140 points. Ernst competed in the same age category and came in 9th position and received 100 points. Thanks to all the cyclists who gave their BEST! You guys were great!

The Grade 2s do oral.

Liam Badenhorst's dream is to one day drive his own Bugatti.

Ethan Burger came to tell us how astronauts live in space and how much it costs to send them there.

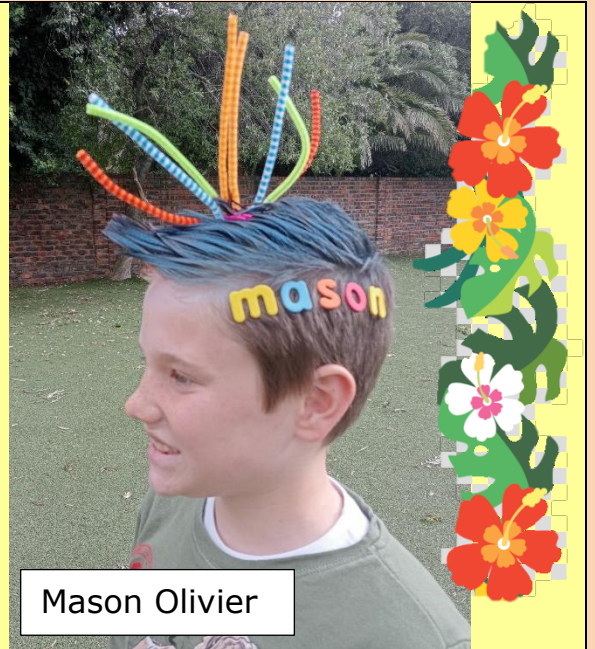

Sebastian van Ees came to tell us about his great grandfather, John Davis, who was a fighter pilot in the Korean War.

Tyler Parkinson told us about all the different kinds of transport.

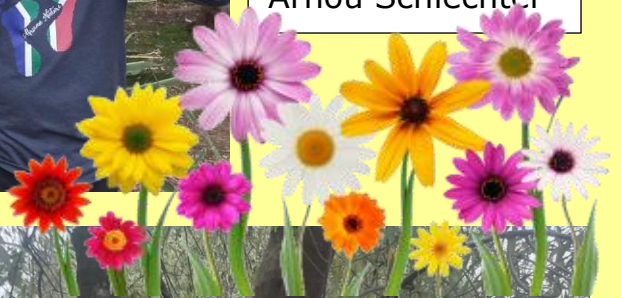

Funky Hair and Hat Day!

Vergezicht:

A unique learning environment
where children reach their own
potential.

Art: Gia Hayes

Thousands of kilometers away, the schools in Tokyo started a new school year. Ouma Nokkie's grandson, Oskar Hartman's academic year started in all seriousness.

In Japan, the children in the schools still have to wear masks - we are so lucky here in South Africa!

Essence of Parenthood: Meeting

Anneli Peters, distributor of *Release SCE*, came to Vergezicht on 18 August to tell us more about the products. The products are known to help in improved concentration and reduced anxiety.

For more information contact Anneli at 083 782 7006.

Release Sce™ is a cognitive formula. Its main purpose is to act as a natural selective serotonin re-uptake inhibitor (SSRI). A combination of ingredients, in specific doses, optimize the brain's cognitive ability to process information, improve the memory, improve awareness, recognize and distinguish easier and faster, become conscious of information (grasp, understand quicker), improve motor skills and focus, concentration, emotional development and relaxation. Helps with anxiety, depression, ADHD, bipolar or any other cognitive conditions.

Our Deepest Sympathy

*Our deepest sympathy goes
out to Carin ten Cate
whose mother recently
passed away.*

*Tannie Lalla was part of
the Vergezicht family and
we will always miss her!*

*Goodbye,
our next Inkpot is in
October.*
